

Low cost RF repairs for the plasma related industries

RF
Global
Solutions

RF Global Solutions Ltd

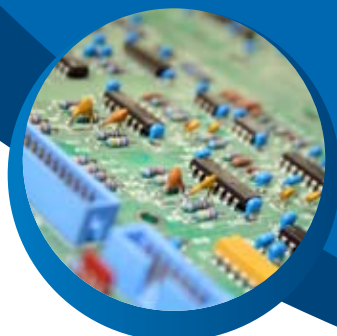

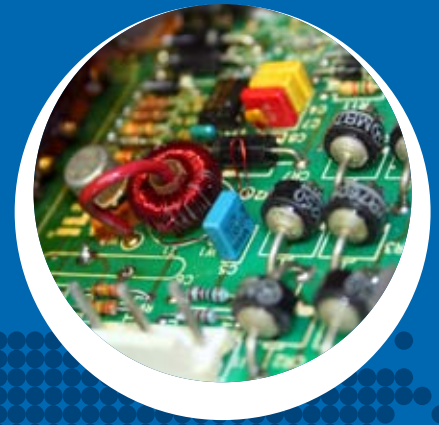

welcome

We are constantly assessing the latest RF technology on offer supported by our representatives all over the world. We then design, repair, install, service and train to all the quality standards you'd expect, ensuring that our customers get the local service they are familiar with, backed by the reassurance of an international RF leader.

We know what we're doing

Our engineers are skilled and proud of the work they do. Some joined us through the RF Global Solutions apprenticeship scheme and have been with us for many years. They share a commitment to keeping their skills up to date with regular in house training at our East Kilbride Head Quarters. We know what we are doing.

services

RF Audit & Design The effectiveness of your RF system is dependant on a comprehensive RF audit to fully understand the needs of your work place.

Sales RF Global Solutions has a vast array of refurbished equipment available to purchase at any time to ensure you continue to operate smoothly in this turbulent market place.

Training We can supply tailored RF training on site or at our facility in East Kilbride, courses are made to suit your company needs.

Repairs If your unit is not commonly used or industry standard don't worry as we can normally repair any type of RF power supply, RF match and DC supply.

International Coverage ◦ Repairs ◦ Sales ◦ Consultation ◦ Training ◦ On-site Servicing ◦ Recycling ◦ Free Estimates ◦ Quality Assured
